Auto-Kinetics Model 55 Belt Conveyors

Conveyor Systems for Automation & Packaging.

Exclusively from Performance Feeders, Inc.

Performance Feeders Keeps Your Product Moving!
Model 55 Belt Conveyors

The Auto-Kinetics brand of Model 55 Belt Conveyors, manufactured by Performance Feeders, is a line of light-duty low-profile belt conveyors optimized for automation and packaging operations. Standard configurations include straight line horizontal, incline and decline, backlit for vision inspection, nosebar ends for small part transfers, and incline to horizontal (Z-configurations).

Custom-configured conveyor systems are also available. We offer everything from standalone conveyors to complete turnkey handling systems with integrated controls packages.

Features

- Widths from 40mm to 640mm
- Lengths from 380mm to 12m
- Load capacities up to 400lb
